But don’t wait – rooms at the discounted rate will sell out quickly!

See back of this invitation for course overview, objectives, and registration details.
Advanced application of the All-on-4® treatment concept from a TEAM perspective

presented by Gary Zelesky; Ken Parrish, DMD, PhD; Steven Bongard, DDS; Chuck Genco, CDT; Tom Wiand, CDT

Course summary
This course is designed to educate the team on the importance of working together. You will hear from the specialist, the restoring clinician, and laboratory technicians, as they describe their roles in the All-on-4 process.

Learning objectives
The following topics will be covered:

Surgical perspective
– Implant selection for initial stability – NobelActive
– Anesthesia
– Alveoplasty

Laboratory perspective
– Role lab plays in the conversion
– Complete case example
– Materials used
3-step approach vs 5-step (pros and cons)

Restorative perspective / Business perspective
– Direction of corporate dentistry
– Restorative steps to ensure accuracy of final treatment
– Marketing and direct-to-consumer (DTC) advertising
– Direction of how to treat terminally dentate patients in future

NobelClinician Software
– Latest advancements in software
– Vital role of cone beam technology for treatment
– Case example: subcrestal placement of implants using NobelGuide
